Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

After-tax other earnings include corporate investment income not allocated to operating businesses, earnings from equity method investments and foreign currency exchange rate gains and losses related to non-U.S. Dollar denominated debt. Other earnings declined \$721 million in the second quarter and \$1.76 billion in the first six months of 2025, reflecting foreign currency exchange rate losses in the second quarter and first six months of 2025 versus gains in 2024, partially offset by increased corporate investment income. After-tax foreign currency exchange rate losses were \$877 million in the second quarter and \$1.6 billion in the first six months of 2025 compared to gains of \$446 million and \$1.0 billion in the corresponding 2024 periods. After-tax corporate investment income increased \$1.1 billion in the first six months of 2025 compared to 2024, primarily attributable to the impact of increased investments derived from subsidiary capital distributions to Berkshire.

Insurance—Underwriting

Our periodic underwriting earnings may be subject to considerable volatility from the timing and magnitude of significant property catastrophe loss events. Further, we generally do not retrocede the risks we assume. We currently consider consolidated pre-tax losses exceeding \$150 million from an event occurring in the current year to be significant. We incurred significant losses in 2025 from the Southern California wildfires in the first quarter, while we experienced no significant catastrophe events in the first six months of 2024. Changes in estimates for unpaid losses and loss adjustment expenses, including amounts established for occurrences in prior years, and foreign currency transaction gains and losses arising from the remeasurement of non-U.S. Dollar denominated assets and liabilities can also significantly affect our periodic underwriting results.

We write primary insurance and reinsurance policies covering property and casualty risks, as well as life and health risks. Our insurance and reinsurance businesses are GEICO, Berkshire Hathaway Primary Group ("BH Primary") and Berkshire Hathaway Reinsurance Group ("BHRG"). We strive to generate pre-tax underwriting earnings (defined as premiums earned less insurance losses/benefits incurred and underwriting expenses) over the long term in all business categories, except in our retroactive reinsurance and periodic payment annuity businesses. Time-value-of-money concepts are important considerations in establishing premiums for these policies, which are recognized as charges to earnings over the claim settlement periods.

Underwriting results of our insurance businesses are summarized below (dollars in millions).

GEICO

GEICO writes property and casualty insurance policies, primarily private passenger automobile insurance, in all 50 states and the District of Columbia. GEICO offers its policies mainly by direct response methods where most customers apply for insurance coverage directly to the company. GEICO also operates an insurance agency that offers primarily homeowners and renters insurance to its auto policyholders. A summary of GEICO's underwriting results follows (dollars in millions).
